

RESOLUTION Proposed by Harvey Bowen, RPA Vice-Chair

Resolution requesting the Board of Directors to appoint Regional Liaisons from the Board Members

The Council of Representatives asks the Board of Directors to formally appoint individual Board Members (Directors or Officers) to serve as Liaisons to and for each region of the USA. Those regions may be defined by the board to best fit with the board volunteers available, and we recommend that when possible, each liaison be a resident of or have prior connections to that region. We further ask that each regional liaison be asked to prepare and present a brief report on activity in their region to the Council yearly either at a Council meeting or in writing.
